3 **INDIGENOUS AND SEMI-INDIGENOUS ARCTICUS BLANCUS**
4 **MEMBERS RETURN PLAN**

5

6 GENERAL RETURN PLAN REMARKS FOR THE PURPOSE OF COMMUNICATION
7 WITH PARTIES OF THE UN ILO C169 CONVENTION IN CONTROL OF ARCTICUS
8 BLANCUS INDIGENOUS TERRITORY

9

10 A. SECURE INDIGENOUS FOREST AND LAND FOR TEMPORARY HOMESTEAD
11 ESTABLISHMENT FOR ETHNIC AND SEMI-ETHNIC REPATRIANTS OF THE ARCTICUS
12 BLANCUS TRIBES.

13

- 14 a. Temporary homesteads will be set according to indigenous standards in a form of “Ethnic
15 Indigenous Communities”.
- 16 b. Temporary Ethnic Communities will be set on land areas not smaller than 2 km² with 10
17 km² of attached forested area.
- 18 c. Temporary Ethnic Community of 2 km² will be subdivided to small parcels of land from
19 250m² to 500m². Parcel for ethnic homes are planned on 37.5% of each 2 km² of land
20 designated for Ethnic Community. Total number of home parcels that can be established
21 on each 2 km² ranges from 3000 parcels for 250 m² lots to 1500 parcels for 500 m² lots.
- 22 d. Temporary Ethnic Community general rules that set community standards are set in the
23 publication titled Eugenix® ROD Etniczny - Regulamin ROD-u Mniejszości Etnicznej
24 Blanków grupy Arcticus Blancus that can be translated upon request.

25

26 B. SECURE RIGHTS TO PROFIT FROM THE SALE OF INDIGENOUS RESOURCES SUCH
27 AS NATURAL GAS AND TAX PROVISIONS FOR THE USE OF INDIGENOUS LAND BY
28 NON-INDIGENOUS CITIZENS TO:

29

- 30 a. Cover the cost of Indigenous Ethnic Communities establishment.
- 31 b. Cover the costs of indigenous Ethnic Communities operations.

- c. Cover the cost of establishment and operation of other Ethnic establishments such as Ethnic Health Care facilities and personnel to care for the indigenous ethnic members general healthcare needs, but also for all ethnic persons that require 24 care due to various congenital and con-congenital health conditions resulted from living in non-indigenous climate, community, relationship, etc.
- d. Cover the costs of identification and relocation of all indigenous ethnic and semi-ethnic members of
 - i. Arcticus Blancus ethnicity that are ready to repatriate and relocate to indigenous tribal land' Temporary Ethnic Communities above 62° 45" North to the states of Greenland, Norway, Denmark.
 - ii. Arcticus Blondus ethnicity that are ready to repatriate and relocate to indigenous tribal land' Temporary Ethnic Communities above 51°05" North to 62° 45" North to the states of Greenland, Norway, Denmark, Germany.
 - iii. Arcticus Blundus ethnicity that are ready to repatriate and relocate to indigenous tribal land' Temporary Ethnic Communities above 41°45" North to 51°05" North to the state of Germany.
- e. Cover the costs of establishment of return rights for other indigenous ethnic and semi-ethnic tribes related to the subarctic and lower subarctic in need of relocation to indigenous territories of their ancestral climate especially for the:
 - i. Coarcticus Burgundus ethnicity that is coindigenous to territories between 34°00" North and 62° 45" North 360° depending on their remained Ethnic Hair Quantum.
 - ii. Coarcticus Burgundus ethnicity that is coindigenous to territories between 34°00" North and 62° 45" North 360° depending on their remained Ethnic Hair Quantum.

C. RELOCATION PRIORITIES FOR ALL ETHNICITIES READY TO REPATRIATE TO TEMPORARY ETHNIC COMMUNITIES IN THEIR CORRESPONDING INDIGENOUS LANDS ARE SET BASED ON THE FOLLOWING CRITERIA:

- a. Eugenix® Full-Ethnic and Semi-Ethnic Reservations Admittance Guidelines.
- b. Eugenix® Ethnic Hair Quantum for Ethnic Work Predisposition.
- c. All financial assistance and dividends rules for ethnic and semi-ethnic persons are set in the publication titled, Eugenix® Indigenous Natural Resources Management and Dividend Rules.

D. EXPECTED NUMBER OF INDIGENOUS REPATRIANTS AND EXPECTED COST OF
RELOCATION OF INDIGENOUS REPATRIANTS TO THE ETHNIC COMMUNITIES
ESTABLISHED ON THEIR INDIGENOUS LANDS BY THE ETHNICITY:

- a. ARCTICUS BLANCUS: Less than 10,000 persons from the Middle East and Gaza. Approximately 50,000,000-100,000,000 of semi-indigenous persons remain in the area completely below subarctic that qualifies for relocation to indigenous arctic and indigenous subarctic territories based on its mixed Arcticus Blondus, Arcticus Bluntus ethnicity.
- b. ARCTICUS BLONDUS: Possibly 100,000 or more in the Middle East and Gaza.
- c. ARCTICUS BLUNDUS: Number bigger than EUGENIX P.S.A. ability to determine, United Nations member states efforts would be needed to determine exact number.
- d. RELOCATION COST. Relocation cost per person composed of transportation can vary based on transportation type and availability that can range from several hundred dollars to several thousand dollars.
- e. IDENTIFICATION COST. Identification cost for secured ahead transportation that assigns upon arrival a correct priority to repatriates is based on the circumstances of the location from which indigenous repatriates are being relocated from eg. war zone vs. non-battle involved state. Personnel can cost as much as military technical personnel or as little as State Technical worker salary. Overall, the cost to assign relocation priority under non-battlefield circumstances should be no more than cost of visiting a nurse and take no more than 30-60 minutes to complete by simple interview and partial anthropometric examination that would include assignment of ID with establishment of communication types, places and periods with indigenous repatriant (repatriate) until relocation time.
- f. TEMPORARY ETHNIC COMMUNITIES. Cost to establish "Temporary Ethnic Communities" will vary depending on the costs of construction in the states of the constructions as well as other factors such as how much construction is done by the repatriants and how much of the construction is done using natural indigenous materials such as timber. Most of the costs will be in the Ethnic Health Facilities and later other Ethnic establishments such as Primary Schools, Trade Schools and Universities operated by the Arcticus Blancus. Costs per persons however should not amount to more than cost

of health care and education of citizens that live on the indigenous lands as tax paying
citizens not involved in their heritage.

E. EXPECTED NUMBER OF COINDIGENOUNS REPATRIANTS AND EXPECTED COST OF
RELOCATION OF INDIGENOUS REPATRIANTS TO THE ETHNIC COMMUNITIES
ESTABLISHED ON THEIR INDIGENOUS LANDS BY THE ETHNICITY:

- a. Coarcticus Burgundus – Low number of persons in all individual ethnic groups of
Coarcticus Burgundus of light and dark hair. Number possible to relocate without UN
involvement with small budget and relocation rights.
- b. Coarcticus Brunettus – Not possible to establish for majority of dark hair Coarcticus
Brunettus ethnicities without United Nations support and responsiveness of border line
states.

As a semi-ethnic member of the Arcticus Blancus indigenous ethnicity currently endangered I can
only work on ethnic matters of the arcticus blancus ethnicity, however once arcticus blancus relocation
begins and budget for other ethnicities such as arcticus blondus or Coarcticus Burgundus emerges from
their indigenous territories will have ability to support their efforts to organize their ethnic identity and
reestablish their ethnic communities in correct indigenous territories. For now, I can only spend my time
and personal financing on helping the most needed arcticus blancus group affected by the climate, sexual
exploitation and socio-economic discrimination the most of all northern indigenous tribes.
