Please provide a detailed description of the context; summarize the concerned bill, legislation or policy, including their stage of development, or describe the concerned practice:

I have two propositions:

1 Annex to the resolution 260/(A) III from the 09.12.1948 to expend protection from genocide toward indigenous and nonindigenous ethnic groups.

2 Annex to the Antarctic Treaty returning control of all indigenous territories to the Arcticus Blancus tribes.

Please describe on whom or which group the bill, legislation, policy or practice has/would have an impact, what rights would allegedly be affected and how:

Annex to the resolution 260/A III would benefit all indigenous groups of all states that are parties to the resolution

Annex to the Antarctic treaty would benefit Arcticus Blancus that would escape from possible extinction and start on repair of the geomagnetic climate that causes global warming by weak magnetic field.

I can provide any and all additional information to help the cause of the indigenous people of Arcticus Blancus and all other tribes affected by lack of indigenous rights to own territories, resources, marriages, birth rights, etc
